

Amendments to the Abstract of the Disclosure:

Please replace the Abstract with the following amended paragraph:

al
A portable telephone terminal where ~~In a wait state of a~~
~~portable telephone terminal or a state in which processors and~~
~~the like are not in full operation,~~ power is supplied from a
series power supply when the portable telephone terminal is in a
wait state or a state where processors and the like are not in
full operation. When the processors and the like are in a busy
operating condition, power is supplied from a DC/DC converter.
While the series power supply supplies power, operation of the
DC/DC converter is stopped.
